DEC@UNM Call For White Papers
Edl Schamiloglu, Director
Gunny Balakrishnan, Associate Director

The Directed Energy Center at the University of New Mexico (DEC@UNM – <https://dec.unm.edu>) is soliciting white papers for seed funding from faculty in universities, tribal universities, colleges, community colleges seeking to establish a program in Directed Energy (DE). White papers are limited to two pages and should provide an overview of the technical work proposed and a ROM budget for a 12-month period of performance. Since no budget details are requested, this white paper need not be a formal submission from the institution's office of sponsored projects. Expected awards will range from \$50-100k as a subaward from the DEC@UNM.

White papers will be accepted through April 30, 2025. Interested faculty should email their white papers to Profs. Schamiloglu and Balakrishnan at: edls@unm.edu and gunny@unm.edu.

Questions pertaining to DE microwaves should be addressed to Prof. Schamiloglu (edls@unm.edu) and questions pertaining to DE lasers should be addressed to Prof. Balakrishnan (gunny@unm.edu).
